FOR CBD BUSINESSES

Road closures will be in place from 3.30pm in the CBD. However, traffic will be permitted to move through by Police and Traffic Controllers where safe to do so. It is strongly recommended to use Florence Street as this will be set up to manage efficient traffic flows. Please note that between 5.10pm and 5.40pm NO TRAFFIC will be allowed on closed roads with two major events occurring during this time.

Traffic management infrastructure will be removed systematically as the last runners move through the course. Strict cut-off times will be enforced to ensure roads re-open as required by permit conditions. Specific closure and re-opening times will also be advertised on signage on affected roads two weeks prior to the event.

FIREWORKS

A fireworks display will be held at approximately 7.00pm. Please restrain any sensitive pets during this time.

EMERGENCY VEHICLES

Access for emergency vehicles will be maintained at all times by Police Officers, Traffic Controllers and Event Marshals.

PUBLIC TRANSPORT

Bus route 220 will be affected by the event. An alternative shuttle service will operate during these affected service times.

TAXIS

The Taxi Council has been advised of this event. Please allow for possible delays.

STREET PARKING

Please do not park along the course as this will restrict both access from the area during the race times and will impact on emergency vehicles needing to use the lane space.

FOR CYCLISTS

No shared pathways or bikeways will be used for this event; however, please be patient with high volumes of runners on the affected roads.

Please plan ahead to avoid any delays.
